Challenges for foster care of children in the Province of Bolzano

PROVINCIA AUTONOMA DI BOLZANO - ALTO ADIGE

Padova, 9-11 September 2013

CHALLENGES

- Difficulty in finding new foster families and persons (social changes...)
- Crisis of the foster care model based on solidarity
- Difficulty in keeping the availability of foster parents constant in time
- Growing complexity of the cases and assisted family situations
- Time limit of the two years imposed by the national law
- Assessment of the foster care suitability in case of foster to relatives within the 4th degree

POSSIBLE INTERVENTION MEASURES AND NEEDS FOR DEVELOPMENT

- Intensification of information and awareness activities
- Strengthening of the training of foster families and persons (both basic and during the fostering)
- Development of association activity in this field
- Experimentation with new forms of foster care (professional foster families, homocultural fostering, families for emergencies)
- Further development of the assessment of the foster care suitability in case of kinship within the 4th degree
- Intensification of the support phase of foster families and persons
- Developing a common culture and language: foster care as a preventive measure

Thank you for your attention
