

Thesis Application Form

Chair of Management, Accounting and Corporate Governance

If you are interested in writing your thesis (in English or German) with us, please send the following documents to accounting@uni-siegen.de:

- Application for thesis supervision,
- Thesis subject including a proposal,
- Transcript of records.

The proposal should be approximately two pages long and address a specific subject selected from the list published on our website. It must clearly reflect the relevance of the research subject, as well as the research question and the respective methodological approach. Individual subject proposals with corresponding proposals are welcome. Please be advised that the subjects offered in accounting, auditing, and corporate governance are updated at the beginning of each summer and winter semester. If you are interested in writing your thesis in collaboration with a company, please contact Prof. Andreas Dutzi first.

Please note that there are no application deadlines. Confirmations of supervision are issued on an ongoing basis. However, we ask that you submit your application at least two weeks before the planned start date.

I hereby submit this application for the following thesis subject and confirm that it is **binding**.
