

Important information and deadlines for the summer term 2023

All academic achievements (examinations, tutorials, laboratory etc.), excluding theses and research lab courses should be registered through unisono!

The registrations for exams or other academic achievements should be done separately from the registrations for the respective lectures / tutorials. It means that a registration for a lecture or a tutorial is not a requirement or a registration for an exam or a tutorial.

Registered academic achievements (for example tutorials, lab courses etc.), which shall not take place / shall not be done in the current semester, should be deregistered through unisono until the end of the current semester. The registrations shall not be transferred into the next semester and thus registration in the new semester shall not be possible!

Improvements should be registered through the examination office within the following registration deadlines.

The first examination period in the summer term 2023 starts on July, 17th and ends on July, 28th 2023. Registration through unisono for this period starts on June, 26th and ends on July, 10th 2023 (11:59 p.m.).

The second examination period starts on September, 18th and ends on September, 29th 2023. Registration through unisono for this period starts on August, 28th and ends on September, 11th 2023 (11:59 p.m.).

Should you face problems while signing in for the exams please contact the examination office immediately (on the next working day after the end of the relevant registration period at the latest). Screenshots of error messages or disorders might be helpful.

Deregistration (regular withdrawal) should be done through unisono **seven** days prior to the examination date. Unisono system calculates the exact time depending on the beginning of the respective examination.

Withdrawal due to a sickness should be done through the examination office immediately (however, within 3 working days after the examination date at the latest!).
