Awaiting Approvel from Student	LA has been completed by the student but has not yet been shared with home institution.
Awaiting Approval from Sending Institution	LA has been completed and shared with the sending institution. The documents needs to be reviewed and approved by sending institution.
Draft Version	LA with changes proposed by either Sending Institution or Student which have not yet been approved by both. Not shared with Receiving Institution.
Last Shared Version	The version of LA that was last shared with the Receiving Institution.
First Version	The first list of Learning Components approved by Sending Institution, Receiving Institution and student
Latest Proposal	The latest set of LCs suggested by Sending Institution or student.
Last Approved	After First Version, the latest set of Learning Components approved by Sending Institution, Receiving Institution and Student.

Main Terms Used

Learning Agreement	Document shared between Sending Institution, Receiving Institution and student and containing learning outcomes of the mobility.
Learning Components	Educational components i.e., courses, which the student will complete during the mobility.
Mobility Type	Describes the type of mobility. The components available and the processing of the LA will change depending on the mobility type.

Semester Mobility

Refers to a semesterwise physical mobility. It may include optional virtual components. Further "Home Components" or components at the sending institution, that correspond to the courses the student will complete at the receiving institution, may be added.

Blended Mobility

Refers to a mobility where there is at least one course with virtual aspects.

Doctoral

Refers to mobility for doctoral candidates. It may include optional virtual components.

Stay Components

Applicable for semester mobility only. Refers to the components the student will complete at the receiving institution.

Home Components

Applicable for semester mobility only. Refers to the components that correspond to the ones the student will complte at the receiving institution.

Virtual Components

Applicable for semester and doctoral mobilities. Refers to the virtual components the student will complete as part of the mobility.

Blended Components

Applicable for blended mobilities only. At least one of the blended components must have a virtual aspect.

Doctoral Components

Applicable for doctoral mobilities only. Refers to the components the student will complete as part of the mobility.

Recognition Conditions

Refers to the additional conditions required by the sending institution to recognise the credits for the course the student will study at the receiving institution.
Information on recognition conditions should only be included in exceptional cases. Automatic recognition should remain standard procedure.
