

BlendEd Community of Practice

The BlendEd Community of Practice (BlendEd CoP) is an inclusive, dynamic online space for educators, researchers, practitioners, students, and industry partners committed to shaping the future of blended and virtual mobility in higher education and vocational education and training.

We bring together diverse voices to co-create learning experiences that transcend geographic, institutional, and disciplinary borders. By fostering international, intercultural, and interdisciplinary cooperation, we aim to remove barriers to physical mobility and open new pathways for collaborative learning.

Through shared knowledge, innovation, and dialogue, our community connects like-minded professionals and learners from across sectors and countries, promotes collaboration to develop flexible, inclusive, and future-ready mobility models, co-creates solutions to real-world societal challenges involving academia, industry, and civil society and fosters equity in access to international and intercultural learning experiences.

BlendEd CoP, an outcome of the [ABC BlendEd Erasmus+ CBHE project](#), is sponsored by the ATHENA European University Alliance, in cooperation with five other organizations.

Join the [BlendEd Community of Practice](#) today and help reimagine the future of global learning through collaboration, creativity, and connection.
