The Langscape network

LANGSCAPE is an international research network engaging in plurilingualism, language education and language learning.

LANGSCAPE responds to the tendencies of linguistic, cultural, and methodological fragmentation in foreign/second/further language research by strengthening plurilingualism and diversity, and by giving special consideration to the social impact of mobility, migration, class, and gender as expressions of linguistic/cultural empowerment and integration. The general research concept of LANGSCAPE projects beyond disciplinary and geographic boundaries.

Areas of Langscape activity:

- Research in international groups & contexts
- International plurilingual conferences
- Plurilingual publications prepared by international editorial teams
- Curriculum development in language teacher education
- Opportunities for study in plurilingual contexts at BA, MA & PhD level
- Doctoral workshops & colloquia, summer/winter schools, expert seminars
- Bilateral PhD opportunities (co-tutelle/bi-lateral supervision)
- Blended learning activities

What are SIGs (Special Interest Groups)?

These are flexible working groups consisting of experienced researchers and junior researchers who would like to exchange ideas or work together on three thematic foci:

- 1: Research methodology and ethics
- 2: Language policies
- 3: Language teacher development

Interested?

Then you are cordially invited to join in the discussion or even to collaborate.

**Registration until Wednesday, the 14th of June
2023:**

The ENROPE project

European Network for Junior Researchers in the Field of Plurilingualism and Education emerged as a subsidiary project of the LANGSCAPE network.

ENROPE is an international, cooperative project aiming to provide high-quality qualification and networking structures for professional development for junior researchers in the field of language education and plurilingualism. The ENROPE project works at the interface of language education research and language teaching. ENROPE promotes inquiry-based and research-related classroom development that is sensitive to the linguistic ecology of classrooms and their environments.
